- |              |                      |

| Prune Pits   | Walnut Shells        |
| Date Seed    | Plum Pits Olive Pits |
| Cherry Pits  | Hickory Nut Shells   |
- Special attention is called to prune pits. Prunes are a universal breakfast dish used the year around. Pits of cherries, imported in brine from Italy should not be included, nor should any other material not mentioned in this list. It is not necessary to keep each kind of pit or shell separate. Put a pail in the corner of the kitchen just for the government and as you fill it turn the contents over to the Red Cross. Any of the materials mentioned, no matter how old, are acceptable, provided they are sound and thoroughly dried.
